

**YOU HAVE BEEN ROBBED**

**You will never know what was inside**

**It's time to do something**

The first step is raising awareness and speaking with a single, clear and loud voice. SAFE is a non-profit organization created to provide that voice through collaboration with people like you.

Our goal is to create a public dialogue that will drive this issue into the mainstream.

We have already seen the beginning of change, but we have a long way to go.

**Because of looting and the trade of illicit antiquities, countless tombs around the world are now as empty as this one.**

## It's time to do something

The first step is raising awareness and speaking with a single, clear voice.

SAFE is a non-profit organization providing that voice through collaboration with people like you.

Our goal is to create a public dialogue that will drive this issue into the mainstream.

We have already seen the beginning of change, but we have a long way to go.

## SAFE is unique

SAFE was started by a group of concerned citizens.

We have no political, economic, or special interest agendas.

The trade of antiquities on the black market for the profit of a few impacts us all.

It takes away, forever, the beauty and the wisdom of the ages.

It is our problem, yours and mine, for it attacks the very core of who we are.

## Join SAFE and voice your concern

If you share our concern, join us and work with us on our educational programs and media campaigns, whether you are an individual or represent an organization.

The long-lasting change we propose is a huge endeavor.

It is not just for scholars, professors, legislators and members of law enforcement.

Saving our collective past requires our collective effort.

Only through your involvement can we make it happen.

If you want to know more about SAFE, and what has already been accomplished  
through our programs and projects visit us at
